Associate in Science: Pre-Pharmacy Pathway

All Pathways are design to transfer to a four-year institution for eventual completion of a BA/BS or BFA degree.

There are many options for students wanting to pursue a career in pharmacy. Even though most jobs are as a pharmacist behind the counter who fills a prescription at the drug store or grocery store, there are many other options available in pharmacy for those who have completed their doctor of pharmacy (Pharm.D.) degree and the necessary licensure requirements. Options include retail, clinical, long-term care, and nuclear.

In addition to earning a bachelor's degree, four more years earning a doctorate in pharmacy is required.

AA and AS degrees require completion of a minimum of 60 semester hours of credit, but pathways may include extra hours to meet university baccalaureate degree plans. Completion of hours beyond 60 may not be required to meet AA or AS graduation requirements but is recommended based on programs offered by intended transfer institutions.
