

2015 Collaborative Conference for Student Achievement

Help kids discover their passion and turn it into a career

Monday, March 30 • 8:30-9:45 a.m. • Augusta room

Wednesday, April 1 • 10:00-11:30 a.m. • Imperial A room

Discovering what motivates kids to get out of bed in the morning can be an insight into their career preferences and a motivation for them to stay in school and apply themselves to learning.

Kids don't really know what they want to be when they grow up. Most mention something they have seen on TV or learned from their parents. Until they discover who they are, discover their own personal career interests, discover their purpose in life – they may not ever discover their perfect career.

This eye-opening presentation looks at ways to help kids discover their life's purpose, their passion, and then help the kids create a career pathway that will put them on track to a rewarding career that's never perceived as a job.
